

NEWS FROM THE LIVE WIRES

LILLIAN NORDICA IS VICTIM OF NEURITIS

Boston, Feb. 13.—Stricken with acute neuritis and racked with pain, Mme. Lillian Nordica lies in her hotel tonight in a serious condition. This evening Mme. Nordica was to have appeared as Isolde in the opening performance of a great Wagnerian jubilee arranged by Dr. Russell of the Boston opera house, who also induced the great German conductor Felix Weingartner, and Jacques Urli, the famous Beyrout tenor to make a special trip to this country to take part in the jubilee.

Last night Mme. Nordica attended a rehearsal. Though even then on the verge of a breakdown she went through the evening's work. The nurses who had accompanied her from New York were on the stage with her. She was supported to her carriage, where she collapsed. On her arrival at the hotel a doctor was summoned.

Although she suffered intense pain throughout the night she fought without avail. As morning wore on she grew worse. Finally at 10 o'clock she gave up hope and asked that Dr. Russell be told. She was then unable to move her limbs and her whole body was racked with pain.

Realizing she would not be able to sing at the performance for which she had worked so hard and for which a trainload of New Yorkers were making a trip, the great prima donna wept.

The sudden attack was so serious that Mme. Galski was summoned by telegraph at New York and appeared in the role of Isolde at the opera house tonight, although she had sprained her ankle at a performance at the Metropolitan opera house last week.

NEW YORK BROKER SUICIDES

New York, Feb. 13.—W. N. Seligman a well known broker of this city committed suicide, shooting himself in a room in the Hotel Gerard today. Mr. Seligman made an unsuccessful attempt to take his life in 1903.

A telephone call to Mr. Seligman's room which was not answered led to the discovery of Mr. Seligman's body. He had shot himself in the mouth, apparently some time during the night. The revolver was still in his hand. His body lay across the bed. This was his second attempt at suicide, the first attempt occurring 8 years ago, when he cut his throat.

PLAN JOINT PROBE OF MONEY TRUST

Senators Kenyon and Lea Join in Framing New Proposal.

Washington, Feb. 12.—The proposed congressional investigations of the "money trust" got an unlooked for impetus today in the Senate and had some developments in the House.

Senator Kenyon, insurgent Republican, and Senator Lea, progressive Democrat, joined in framing a proposal for an investigation by a committee of six members to be drawn from both houses. This is expected to be introduced in the Senate in the form of a joint resolution, which will require the concurrence of the House.

With the House investigation well on its way to the banking and currency committee, as directed by the Democratic caucus, against the wishes of Chairman Henry of the rules committee, William J. Bryan and others, a Senate resolution of inquiry would put a new feature on the fight.

Arthur E. Stillwell, builder of the Kansas City, Mexico & Orient railway, who has said he learned of the "money trust" in financing his road, had a conference with Attorney General Wickersham. Neither would discuss it, but it was known that Mr. Stillwell told the attorney general about the alleged money monopoly.

The House rules committee got together today to discuss a procedure for the banking and currency committee. Chairman Pujo has submitted a resolution for an investigation, which makes no mention of a money trust. Statements by several Democratic members indicated there was not complete harmony in the committee. Chairman Henry of the rules committee, who fought for a special investigation, wanted to get some of his original resolution into the Pujo resolution, but did not succeed.

A Warning Against Wet Feet.

Wet and chilled feet usually affect the mucous membrane of the nose, throat and lungs, and a gripe, bronchitis or pneumonia may result. Watch carefully, particularly the children, and for the racking stubborn coughs give Foley's Honey and Tar Compound. It soothes the inflamed membranes, and heals the cough quickly. Take no substitute. Co-operative Drug Co.

N. Stanley Adams, English Aviator, Making Flights Over Lake In His Hydroplane.

Photos by American Press Association.

The new type of hydroplane in which N. Stanley Adams is experimenting in England is said to be the fastest yet. Adams has his hangar on the shores of Lake Windermere and has made some sensational flights. In the upper picture he is seen in flight. In the other he is skimming over the water preparatory to making an ascension.

WILL INSIST THAT BRYAN EXPLAIN

Former Democratic Standard Bearer Will Be First Witness Summoned in Investigation of So-Called "Money Trust."

Washington, Feb. 13.—William J. Bryan will be the first witness to be summoned before House committee on banking and currency to testify in the "money trust" investigation which the Democratic caucus, repudiating Mr. Bryan's demand for a special committee, referring to standing committees of the House.

Mr. Bryan trod on the toes of the Democratic members of the committee when he recently declared the "money trust" though it could control the committee. The committee insists that Mr. Bryan explain what he meant, notwithstanding that Mr. Bryan's adherents in the caucus Wednesday offered a resolution, which was adopted, expressing confidence in the integrity of their colleagues on that committee.

"The committee is a unit," said Representative Pujo, chairman of the banking and currency committee, "in the decision that Mr. Bryan must explain to us exactly what he means."

This is what Mr. Bryan is credited with saying about the committee: "Democrats, beware! The money trust, having failed in its efforts to prevent an investigation by the banking committee. The fact that the money trust wants that committee entrusted with the investigation is proof positive that it thinks it can control that committee."

In marked contrast to the proposals made by Representative Henry, Texas, chairman of the rules committee, for an investigation of the "money trust," was a resolution introduced today by Representative Pujo, eliminating all specific reference to the "money trust."

The Pujo resolution was approved by the majority members of the committee to which the Democratic caucus referred most of the inquiry Representative Vreeland, ranking Republican member, first ineffectually attempted to have the Republican members invited into the committee meeting.

The Pujo resolution was referred to the rules committee. It sets forth that the "committee is desirous of securing full and complete information regarding the banking and currency condition of the country for the purpose of determining what legislation is needed."

There are no specific references in the resolution to control the money by financial groups and their domination of railroads, industrial corporations, national banks and the New

York stock exchange and clearing house.

"This resolution has been introduced by me upon my own responsibility, and reflects only my personal views," said Representative Pujo, after the conference of Democrats.

"There has been much loose talk by uninformed persons about monopolistic control of the financial conditions in this country. Should such conditions exist, no doubt legislation along proper lines not only will be recommended by the committee on banking and currency but will be enacted by the House. The monetary system of this country is a scientific and not a political question. It should be investigated along these lines."

NOTICE TO WATER USERS.

State Engineer's Office, Salt Lake City, Utah, January 15, 1912.

Notice is hereby given that M. S. Browning, whose post office address is Ogden, Utah, has made application in accordance with the requirements of the Compiled Laws of Utah, 1907, as amended by the Session Laws of Utah, 1909 and 1911, to appropriate twenty-five (25) cubic feet of water per second from Sheep Creek, Cache County, Utah. Said water will be diverted at a point which bears south 53 degrees 57 minutes east 3,013 feet distant from the northwest corner of Section 24, township 9 north, range 3 east, Salt Lake base and meridian, from where it will be conveyed by means of a pipe line for a distance of 6,000 feet and there used during the period from January 1 to December 31, inclusive, of each year, to develop power for the purpose of electric lighting and propelling machinery at Ogden, Utah. After having been so diverted and used, the water will be returned to the natural channel of the stream at a point which bears north 79 degrees 37 minutes west 1,250 feet from the east quarter corner of section 14, township 9 north, range 3 east, Salt Lake base and meridian. This application is designated in the state engineer's office as No. 4117.

All protest against the granting of said application, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice.

CALEB TANNER, State Engineer.

Date of first publication January 24, 1912. Date of completion of publication February 23, 1912. f24

DEFALCATOR ABSCONDS; CORPORATION BANKRUPT

Portland, Me., Feb. 13.—A. W. Shaw, founder, president and general manager of the A. W. Shaw corporation of Freeport and Boston, shoe manufacturers, has absconded and is a confessed defaulter of a large sum from his company, according to announcement made by receivers who were appointed today.

In a letter to J. Amick of Freeport his partner for twenty-two years and the heaviest stockholder, Shaw wrote that a year and a half ago he made \$300,000 in the stock market and lost all in an attempt to make more. He said he had used the corporation's money, and as he was in ill health he intended to board a tramp steamer bound for Europe and jump into the sea in midocean.

The extent of Shaw's defalcations is not yet known. According to Receiver Amick the shortage is a heavy one. The capital stock of the company is \$300,000.

PEPSIN DOES NOT CURE INDIGESTION.

Kidney diseases increase 167 per cent in the City of Chicago in one generation.

One of the most appalling facts brought to light by the statistics of the United States Census bureau, is the increase of kidney and bladder diseases. In less than one generation these dreadful ailments have increased 167 per cent in the City of Chicago and in much the same ratio in other parts of the United States.

These diseases arise almost wholly from the process of straining the human machine. They may be due to over feeding or under feeding, to over work or under work, in fact to any of those irregularities in living which the average man or woman subjects the body to.

Every three minutes the entire blood supply passes through the kidneys which act as very fine filters separating the waste from the pure blood and eliminating it through the bladder.

During the years of hard work the kidneys break down causing bladder troubles, Bright's diseases, backache and a dozen other ailments which almost every one knows only too well. The weakness will first be noticed by pains in the back, scanty or too frequent urinating, aching limbs, irritability, continuous thirst, irritation of the bladder, sleeplessness and symptoms of allied nature; the latter, as Bright's disease, by intense

paleness and wasting away of the tissues.

After years of careful study and laboratory work, the Chambers Medicine company has perfected a kidney and bladder pill, of greatest curative properties, relieving almost at once and restoring the organs to their normal condition.

Chambers' Kidney and Bladder pills may be obtained at any reliable store and are always guaranteed to cure or money refunded.

"Chambers" is the kind you want. Sold locally by A. S. Horne, Drug-gist, Logan, Utah.

Little Things that Make a Big Winner

THE NEW MODEL FIVE

L. C. Smith & Bros. Typewriter

(BALL-BEARING, LONG-WEARING)

TYPEBAR ball-bearings made like a watch. CARRIAGE—with geared ball retainer, moves at a feather touch and stands at any point, unshakable. ESCAPEMENT—lightning swift in its get-away from the operator's nimble fingers. TOUCH—smooth, easy, with snappy response. SHIFT-KEY—lightened to one-third ordinary pressure. ALL OPERATIONS, including ribbon color changes, direct from the keyboard.

Careful, painstaking application to such fine details of construction have given you a typewriter that gets big results and does satisfactory work—all kinds of it—without a bit of fuss or needless effort.

Your stenographers will like the Model Five L. C. Smith & Bros. Typewriter because it enables them to do better work, do it easier, and do more of it. You'll want it, yourself, for the same reasons and also because, on account of the ball-bearings throughout, it keeps in better order and gives much longer service.
